Android Developer

Summary

I am a Senior Android developer from Podgorica, Montenegro. I have 5+ years of work experience in Android development, building all kinds of applications. I have worked a lot on video streaming and live TV applications for mobile devices and smart TVs. I made small android games in my early career, and I also have some web development experience, mostly React. I participated in many local programming workshops, hackathons, contests, and I am always striving to improve my technical skills and broaden my knowledge. Furthermore, I mentored and taught Android development in two beginner courses and have been a mobile development team lead as well.

Work History

- | | |
|---------------------|--|
| Sep 2020 - Present | Android Engineer
<i>Infinum</i>
Working in an international IT agency with an experienced Android team for large-scale enterprise clients. |
| Sep 2019 - Sep 2020 | Senior Android developer
<i>Amplitudo</i>
Mobile development team-lead from November 2019 onwards as well.
Taught a 6 month Android course for beginners. |
| Dec 2018 - Aug 2019 | Android developer
<i>GSS Media</i>
Worked on Android and Android TV apps for a live TV/Video on demand platform. |
| Oct 2018 - Jun 2019 | Android developer

Worked on white label video streaming Android applications and Android TV and Fire TV apps. Remote position for a startup from the USA. |
| Mar 2016 - Jun 2016 | Android & Web developer
<i>Codingo</i>
I worked as a developer working on android applications as well as some basic web PHP/Laravel projects. |

- Oct 2014 - Present **Freelance Android developer**
Self-employed
I worked on various projects that come from personal references and freelance platforms. On Upwork I had some projects for blockchain apps for example.
- Jun 2014 - Sep 2014 **Intern Android developer**
Fleka
Summer internship at Fleka, interactive design studio based in Podgorica.
- Nov 2013 - Jan 2014 **Volunteer Android Developer**
Telenor
I volunteered at Telenor to develop an app for Telenor's SurfWisely (Surfuj Pametno) initiative to educate children about using the internet safely. The application was launched to the public in January 2014.

Education

- Sep 2015 - Nov 2017 **Computer Science**
University of Montenegro
I studied for two years on Computer Science at the Faculty of Sciences and Mathematics in Podgorica, at the University of Montenegro until I quit to focus on work.
- 2011 - Present **Open online courses**
Udacity, Coursera, FreeCodeCamp
I have enrolled in numerous online courses and they have greatly contributed to my education. I consider them essential for learning new skills.
- 2011 - 2015 **High school diploma**
Gimnazija "Stojan Cerovic"
I finished High School in Niksic, Montenegro.

Skills

Android

I have many years of professional experience with Android SDK and various 3rd party APIs, libraries, and SDKs like Firebase, Room, RxJava, Stripe, AdMob, Leanback, Exoplayer, Google Maps, Realm, Retrofit, Parse, Facebook, Crashlytics, etc. I worked on apps for mobile phones, tablets, and smart TVs.

Database/SQL

I worked with SQLite databases, used Room ORM for Android. I had experience with Realm as a NoSQL example as well.

Design tools

I have used various UI/UX tools like Sketch, Figma, Invision, Zeplin, Adobe XD, etc.

Java/Kotlin

I develop native apps in Java and Kotlin. I started using Kotlin in 2018 and can use these languages interchangeably in the same projects. I am also familiar with various code architectures like MVP, MVVM, etc.

Git & Open Source

I use Git as my code version control system of choice. I am also an open-source supporter and try to contribute as much as possible to popular libraries.
