

Stevan Bogosavljevic

Senior Solidity Engineer

Podgorica, Montenegro · CET/CEST

✉ stevanbogosavljevic@gmail.com

🐙 GitHub / stevyhacker [in](#) LinkedIn [🌐](#) Portfolio

I build DeFi smart contracts, from treasury and stablecoin integrations to perpetuals and lending.

10+ years in software **5+ years** in Solidity **5 Ethereum standards** co-authored

EXPERIENCE

Dec 2025

- Present

TokenLogic Senior Solidity Engineer

Aave protocol · **\$35B+ TVL** · Jan 2026 [↗](#)

Developed cross-chain bridge integrations and GHO/sGHO routing contracts for Aave DAO treasury operations.

Jul 2024

- Dec 2025

Synthetix Senior Solidity Engineer

Synthetix protocol · **\$630M+ TVL** · Dec 2024 [↗](#)

Built v4 deposit and withdrawal contracts, vault reward accounting, and a Go relayer connecting contracts to the exchange backend.

Integrated CoW Swap and fixed audit findings in v3 perpetuals.

Jun 2023

- Jul 2024

THORWallet Solidity Developer

zkFinance lending · **\$410K+ TVL** · Jul 2024 [↗](#)

Developed staking, DEX, and lending contracts for THORWallet and zkFinance, including reward distribution and contract tests.

Jul 2022

- Jun 2023

RMRK Solidity Developer

Co-authored five finalized ERCs for advanced NFTs. Built reference implementations, royalty support, and marketplace contracts.

Jun 2021

- Jul 2022

MVP Workshop Smart Contract Engineer

Developed NFT liquidity contracts for THEOS on Polygon, with SushiSwap and Rarible royalty integrations.

2013 - 2021

Android Development & Team Leadership

Built apps at Infinum, Amplitudo, and other teams. Led six iOS/Android developers and taught a six-month Android course at Amplitudo.

PERSONAL PROJECTS

LokalBot [↗](#)

Open-source macOS app for private meeting notes, dictation, and searchable work history.

Swift · SwiftUI · On-device AI

BizStats [↗](#)

Company financials, public tenders, and business search for Montenegro.

TypeScript · Next.js · PostgreSQL

TECHNICAL SKILLS

Solidity, EVM, Foundry, Hardhat, OpenZeppelin, fork testing.

TypeScript, React/Next.js, Go, Python, PostgreSQL, Redis.

EDUCATION

University of Montenegro

Computer Science studies · 2015 - 2017

Historical protocol TVL: DefiLlama, at the dates shown. Figures describe protocol scale.
